

My Heart Beats for You

*My heart is full and warm of deep emotions
which radiate out in waves of light and love*

*With each throbbing pulsation
it taps out the beat to an age-old song*

*The words are the same,
but our glorious harmony makes this song ours alone*

*And all that see us, hear our beautiful music
A concerto in the making that can withstand the sands of time*

*Made to last forever
Forever I'll be yours*
